Enemy Territory Quake Wars
Categoria: PC
Idioma: Ingles
Tamaño: 5.30 GB
Formato: ISO
Descripción:
Enemy Territory: Quake Wars is an online, tactical shooter in which the armies of Earth are fighting an alien race known as the Strogg. Experience the ultimate team and mission-based online warfare, in Enemy Territory: Quake Wars. The story is a prequel to Quake 2, where you'll choose to play as the human Global Defense Forces or the invading alien menace, the Strogg. Each side has distinct classes, vehicles, and weapons to choose from, giving players countless ways to join the battle. Gameplay in Enemy Territory: Quake Wars is all about conquering and securing enemy territory, and pushing forward or holding your team's front line. Players must work together using their vehicles, deployables, and character class abilities to complete objectives, defend valuable installations, or execute massive assaults. The new MegaTexture technology gives gamers stunning visuals, realistic physics, and optimized networking combine to deliver an unparalleled online gaming experience. Enemy Territory: Quake Wars is the ultimate online strategic shooter. Unlimited strategic options with deployable Radar, Fire Support and Defense Turrets.

[br0om_br0om](#) at 2008-06-18 04:51 CET:

does this game works?>
seed pls

[FromOblivion](#) at 2008-07-01 19:34 CET:

Hey will this game work for online gaming? I've heard that the cd keys are being monitored so that they only allow one copy to play...and the game sucks single player.....thnx

[el_chupanibre](#) at 2008-09-07 14:07 CET:

Is there actually any LAN multiplayer option in this game or is it just online?

[el_chupanibre](#) at 2008-09-07 14:09 CET:

never mind.. goggled it..

[snper69](#) at 2010-12-24 00:50 CET:

does the fucking game work?

[davidvacsi](#) at 2011-02-08 19:37 CET:

It works perfectly for me, and yes it has a LAN multiplayer function. I just need a cdkey :)

[tupackiller](#) at 2011-05-07 22:04 CET:

TY man its work

[Overgad](#) at 2011-07-23 13:08 CET:

speed plz!!!
i need this game!!!

[jfdc](#) at 2011-09-09 20:21 CET:

Yes the torrent works and the game is really great, just install it and if after installation keeps asking for an update, either find the patch, or say download now and cancel it afterwards! You'll be able to play vs the computer, and LAN! Excellent work uploader!

[SirRudolph](#) at 2011-12-28 21:57 CET:

Pink Skull = Works

[Lord_Shockzzz](#) at 2012-02-26 05:26 CET:

Seed please! I'm getting like 5 kb/s fml :/

[Lord_Shockzzz](#) at 2012-02-26 18:20 CET:

Finally finished the download. Thanks! I'll seed for a day or two.

[RUBDEEZ13](#) at 2012-11-26 22:04 CET:

installed good now im gonna try the game...

[punksterhd](#) at 2013-01-16 02:45 CET:

Platform: Ubuntu 12.10 64-Bit
GPU: NVIDIA GTX 550 Ti 2GB
CPU: Intel Core i7 2.4Ghz
Ram: 8GB DDR3 1600mhz

1. Download and install the ETQW-client-1.4-full.x86.run from here:

<http://zerowing.idsoftware.com/linux/etqw/ETQWFrontPage/> (once downloaded, right click it and click properties, go to the permissions tab and authorize it to run on the check box)

2. Go to the Ubuntu Software Center and install Gmount-iso.

3. Mount the Enemy Territory Quake Wars from this page with Gmount-ISO.

4. Open Terminal and type "sudo so" to enter root mode.

5. If you downloaded the ETQW-client-1.4-full.x86.run to the download folder, cd to that directory or the directory where it is

6. Once you have navigated to the directory write ./ETQW-client-1.4-full.x86.run

7. Proceed to accept Licence Agreements and Installation.

8. To play the game, run the command in Terminal:

./etqw.86

[Kronic_stewy](#) at 2013-10-08 07:28 CET:

Seeeed!!!

[Momomad](#) at 2016-05-17 08:51 CET:

Just,I hope you guys don't fall back to

[rixuxu](#) at 2016-11-10 16:40 CET:

1) Yes, the game works.

2) Multiplayer won't work because of limited CD-keys.

3) I'll upload this for at least 10.62 GB.

Thanks for the upload!
