# How it works

The brains behind the whole operation is the Plex Media Server, our free software that makes the magic happen. Once you have downloaded it onto your computer or NAS device, it gets to work scanning and indexing all of your media, making it look beautiful and intuitively organized in your Plex library, and getting it ready for streaming.

Plex Media Server runs on:

### Computer

Plex Media Server runs on your favorite Mac, Windows or Linux PC.

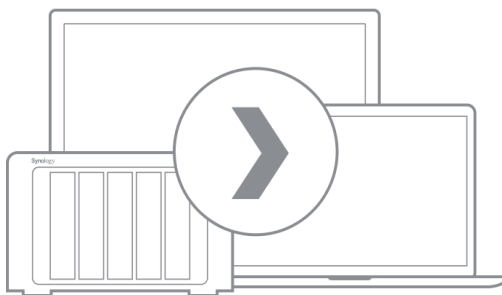

### NAS

Plex Media Server runs on your favorite NAS devices. See if your NAS device is [compatible](#).

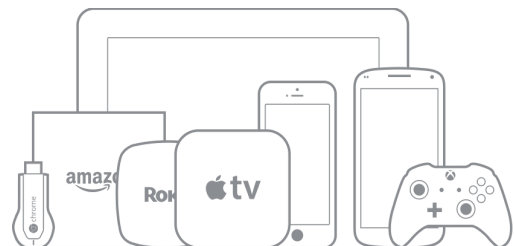

### Wi-Fi Routers

Plex Media Server runs on NETGEAR Nighthawk X10 Wireless. [Learn more](#).

Download Plex Media Server

### Get Plex Apps

Apps on your favorite phones, tablets, streaming devices,

The central, most important piece of Plex, this free software organizes your media and makes it possible to stream it to all your devices.

**DOWNLOAD**

gaming consoles, and smart TVs take the media your Plex Media Server has beautified and gives you access on any device.
