The **EMEEO** is the world's first digital practice horn for saxophone players

Whether you are preparing for a concert, learning new music, improving your technical skills, or just having a good time, the Emeo's authentic saxophone mechanism, means that you can pick it up and play straight away.

The Emeo digital saxophone is not intended to replace traditional saxophones, rather to be the perfect practice instrument. It is also compact enough for you to be able to easily travel with it alongside your main horn.
